Report of the Eco club

The Eco club meeting was organised on 20th August 2022 at 9.00 AM.

The Eco club teachers greeted the students for the Eco club and gave a brief introduction about the objectives of Eco club.

Teacher asked the children to share their views on why they joined the Eco club.

Response.

→ They loved nature.

→ They want to participate in planting the trees.

→ children wanted to keep the school campus green and clean.

In the meeting we discussed about

→ Keep the classroom and school campus clean

→ Avoid junk food and bring healthy food

→ Avoid snacks packed in wrappers to avoid dumping of more waste into our classroom bins.

Well Being out of waste programme

Well being out of waste programme was organised in our school on 19 Aug 2022 by Mr Jenophine.

He gave a brief introduction on how to recycle waste in a manner that protects and restores the environment resulting in clean and hygienic neighbourhoods. This was an initiative taken by the TIC Company.

It was a very informative and Educative speech interaction with the children. He was very efficient in communicating the message to the children to segregate the garbage and put them in the right bin. He mentioned the five colour of garbage bins to segregate the garbage, children were also aware of it. He spoke about the recycling of the dry waste and instructed the children to be a part of their programme by encouraging them to collect dry waste like old books, Newspapers and magazines from their home and they were rewarded for the same.

प्रतिभा

The ITC company revisited our school and provided bags to each child from std IV to VIII to collect the dry waste and bring them to school.

The collection of dry waste drive was organised in our school for two days 16th sep 2022 and 19 sep 2022 children brought the dry waste and they were rewarded with stationary items and certificate according to the weight of the dry waste. children felt very happy and participated well in the recycling drive of dry waste. Through this drive children learned to discard the dry waste but preserve it for recycling.

Club meeting

Date: 15/10/2022

The Eco club meeting was organised on 15th Oct 2022 at 9.00 AM

We had a follow up of what the club had decided in the previous meeting.

Children gave a positive response that they followed these in their classrooms. They also promised to continue doing this in their classroom and school campus. They also said that they would spread this awareness at home and with all their friends and relatives.

It was found that the class room were littered with lots of paper and craft work after the Art and craft class. The Eco club children took up the responsibility of guiding the children to clean up after every craft work.

* Eco club leader Anushka was given the task of going around to all the classes and instructing children not to bring snack in packets or wrappers but rather to pack their snack box with healthy and nutritious stuff like fruits or home made snacks etc.

The future plan is to go for a nature walk around the school campus.
